CHARIOT RIDERS SPRING Ride-A-Thon April 13th-April 17th

The Equestrian Therapy Program has been providing therapeutic horseback riding for the challenged population in our area for 25 years! Our riders are sent to us through the therapy departments of local hospitals, through private physician referral, and through the challenged classes of various area schools. During each session, we will average 85 disabled riders each week receiving this "therapy on horseback". We feel we are making a difference in many lives .

We know that you are besieged with requests from all kinds of charitable organizations. We all need to be informed about our giving. We feel it is important for you to know that ALL of the funds, equipment and services donated to the Equestrian Therapy Program stay here in our own area to help our challenged people.

125 dedicated adult and teenage volunteers from our area help support the program. We are proud of the work that we do and we ask you to consider helping us in our efforts.

All of our classes are held at Chariot Riders located in Ocean County; we invite you to come out to see them in action.
