# Chariot Riders Summer Camp 2017

The riding day camp program is designed to build confidence, teach riding and horsemanship skills, instill respect for the environment, while encouraging new friendships with other children who share the same interest.

[See what a positive impact camp can have on your child!](#)

To achieve these goals, our camp's daily schedule is built around riding lessons. These lessons address the physical aspect of riding, teaching the body how to sit, balance and use aids (signals given with legs, seat, hands and voice) to direct and communicate with the horse. As campers acquire riding skills, they come to understand how a horse's mind works and why he responds as he does.

Campers will develop their **riding skills** through lessons, but also through participating in games, as well as riding through obstacle courses. Activities such as grooming, tacking, feeding, learning the proper care of tack, and general barn management are aimed at increasing **horsemanship skills**. The program also features learning about horse anatomy, nutrition, breeds, parts of the saddle and bridle, and equestrian sports. Methods will include arts and crafts, games, and other hands-on activities.

Daily horseback riding is combined with, **arts and crafts, outdoor play, and nature exploration** to ensure a well-rounded summer experience.

Children will be evaluated on arrival and placed into classes with riders of the same ability.

Prior to their arrival, riders are asked to complete and submit a riding assessment form with the help of a parent or riding instructor.

At the beginning of each session **the campers are also evaluated individually by our riding director**. This ensures that they are placed in the appropriate lesson group, and on a suitable mount.

As a premier **summer equestrian camp**, we take our horseback riding very seriously, but summer days are long and *there's a lot of fun to be had at summer camp!*

# Horseback Riding Assessment

Please complete the entire questionnaire to help us prepare for your stay at camp. If you ride regularly at a barn, please have your trainer fill out the form, or submit a letter that states your skill level/ability and what you are working on. It is very important we receive this completed form a month prior to your child's arrival so that the information is current. Thank You
